GREETINGS.

HAVING A WONDERFUL TIME.

WISH I WAS HERE.
Zippy, what is "self"?

Why ask me?

Oh, I don't know...you seem so...so at peace with yourself...

I pay $60 a month for 24-hour access!!

$60 a month? Yeh! Plus, I've got th' key!

Th' key to self-knowledge?

No, self-storage.
ZIPPY

"Cheeky Tiki" by Bill Griffith

Hey, I've got a good one for you... does God have free will?

No, really... think about it... if God is all-knowing, then He knows what His choices will be in advance, so He has no free will...

I'm getting Excedrin headache number 666...

If God knows the future, He can't change it. If God created time and space, He's separate from both, so He's morally neutral... It blows my mind!

Has Mel Gibson been notified?
CALVIN AND HOBBES by Bill Watterson

I read that scientists are trying to make computers think.

Isn't that weird?? If computers can think, what will people be better at than machines?

Irrational behavior.

Maybe they'll invent a psychotic computer.

© 1993 Watterson/Distributed by Universal Press Syndicate
ZEBRINA, will TH' CAPABILITIES OF TH' HUMAN MIND EVER BE SURPASSED BY A NEW GENERATION OF COMPUTERS?

ZIPPY, WHAT ARE YOU TRYING TO SAY?

I WANT TO KNOW IF, ONE DAY, COMPUTERS WILL HAVE WHAT WE THINK OF AS A SPIRITUAL NATURE?

I DON'T UNDERSTAND YOU, BUT I LIKE HOLDING HANDS!

IF "A" EQUALS "B" AND "C" EQUALS "D", WHAT IS TH' LENGTH OF TH' HYPERBOLA??

I LIKE YOUR GOO-GOO EYES, BUT I DON'T KNOW WHAT YOU'RE TALKING ABOUT!

MY WEBSITE MAY BE MINIMAL AND PRIMITIVE, BUT I'M THRILLED AND EXCITED JUST KNOWING I HAVE ONE!!

AND I LOVE YOU TOO, ZIPPY!
DEAR, DO YOU THINK IT'S POSSIBLE TO THINK OF MORE THAN ONE THING AT A TIME?

ABSOLUTELY.

BUT I THOUGHT TWO THINGS COULDN'T OCCUPY THE SAME SPACE AT THE SAME TIME...

THOUGHTS AREN'T THINGS. ZERBS! THEY'RE STUFF!

SO TH' RULES GOVERNING THINGS ARE NOT THE SAME AS TH' RULES GOVERNING STUFF?

ISN'T GOVERNING IN GRIDLOCK ANYWAY?

THOUGHTS ARE BIGGER THAN BOTH OF US, AREN'T THEY, ZIPPY?

I HAVE NO TIME FOR SPACE AND NO SPACE FOR TIME...

--I THINK!!
This guy is studying these monkeys...

He seems to place two eggplants in a box, but he hides one.

And the monkeys get all upset about the missing eggplant!

That's the kind of job I want.
You know, Zippy, at any point in the progress of life on Earth, things could've gone another way!

During the Cambrian period, it was up for grabs! So, you're saying human life forms are largely accidental?

Uh-huh... a turn here and a twist there and we could all be crustaceans!

It's a miracle we ever got to this higher level of consciousness!

How does Leona Helmsley fit into all of this?

Her ancestors were members of the arthropod family! They fed on trilobites, never paid taxes & all wound up in jail!

Evolution means never having to say you're sorry!

Go Mezzo Z010!

Get off ju-luass!
