A&S&E Faculty Advisory Board for Administration Annual Report 2010–2011

During the 2010–2011 academic year no reviews of administrators needed to be done, in contrast to the 2009–2010 academic year, when the Faculty Advisory Board had the responsibility of conducting the reviews of three deans. As a result, the committee decided at its fall meeting that it would only meet if there were a perceived need to do so. Since this turned out not to be the case, the committee did not meet again during the 2010–2011 academic year.

Harry Bernheim, biology, chair of the committee
Maria Flytzani-Stephanopoulos, chemical and biological engineering
Theresa Howe, Romance languages
Steve Marrone, history
George Norman, economics
