A&S&E Executive Committee (ExCom) Meeting Minutes
March 7, 2011

Committee members gave reports about trustee meetings on advancement, academic affairs, and finance.

There was a discussion of possible new incentives for faculty participation in governance. Should we use the term citizenship instead of service?

A draft document regarding cluster hires was shared. A major goal is to support more interdisciplinarity, particularly in our educational mission. In the future, faculty will be more involved in the selection of the theme of the cluster. This year the goal was to get the cluster hires initiative off the ground.
