In FY15, the Library Committee held four meetings. It was a quiet year for the committee, with no major new business.

Meetings were devoted primarily to library staff reports and committee discussions of these. Primary items included:

- The 2015 Tisch Library Faculty Research Study, which investigated how, where, and why faculty disseminate scholarship through print and digital means.

- Tufts' merger with the School of the Museum of Fine Arts, and the ramifications for Tisch library and Medford-based faculty and students.

- An update on EAST, the print retention partnership of the Boston Library Consortium, following upon the Committee's extensive 2013-14 Print Management Study efforts.

The Committee's quiescence reflected its membership's overall very high level of satisfaction with the Library's services, collections, leadership, staffing, communications strategy, and future direction.

Submitted by the members of the Library Committee
Daniel Abramson, Art and Art History and Chair of the Library Committee
Rachael Bonoan, Biology, GSC rep
Bianca Capretta, TCU Senate Student Representative
Pawan Dhingra, Sociology
