Dr. Neva Goodwin will present a proposal that aims to accomplish two things: to replace inadequate existing social safety nets with a basic guarantee; and to recognize the value of work done in the economy of the home, such as caring for children and persons with illness or disability, food preparation and home maintenance, etc. She will address a question rarely raised in discussion of guaranteed basic income: Which individual or individuals within each household will be the actual recipient of such funds?

Brown Bag Lunch Series
Bring your lunch and join us:
Tuesday, April 8
12:30-1:30
44 Teele Ave, Somerville, MA
Medford Campus, Tufts University
