

Fall 2009

Dear Student:

Congratulations on your acceptance to Tufts University and welcome to our community. This packet contains vital information regarding your entry to the university. Please read all the accompanying information carefully and follow the steps below.

Undergraduate Students

- Please complete the Health Examination Report in its entirety and sign before your appointment with your health care provider.
- Obtain a complete medical examination, the details of which are outlined in the Dear Health Care Provider letter.
- Return the completed form to Tufts University Health Service in the envelope provided by July 15th.

If you need an extension to our deadline, please notify us. The Health Service can do the physical examination for you if you so desire. There is a cost associated with this examination and we would be happy to provide you with the details. Please call (617) 627-3350 to schedule an appointment.

You will also be receiving information this summer about student health insurance under separate cover. It is critical that you attend to that mailing since having health insurance is required for all full time students. You may seek information on our web site at ase.tufts.edu/healthservice.

We look forward to hearing from you in the coming months and are happy to answer whatever questions you have about our stated requirements.

Sincerely,

Michelle D. Bowdler, MSPH
Senior Director Health and Wellness Services
