School of Veterinary Medicine-MAPP	28,812	17,324	800	3,415	50,351
Gordon Institute 1-year Program	39,000	17,324	-	2,232	58,556
2-year Program	19,500	17,324	-	2,232	39,056

If married and your spouse will accompany you to the United States, please add \$4,330 per year to the living expenses listed above. For each child who will accompany you, add \$3,000 per year.

Final figures are subject to approval by the Board of Trustees in May, 2009.

Please Note: Because individuals on student visas must certify that funds are available to finance their education, it is not expected that students will need to work beyond the limits of a teaching or research assistantship. Although part-time (not to exceed 20 hours per week) on-campus work is allowed, these jobs are limited. Please keep in mind that the U.S Citizenship and Immigration Services severely limits off-campus work for students, and, in most cases, does not allow it at all within the first academic year. **You must check with the International Center before considering off-campus employment.** We expect that the funding source(s) you are certifying to us will be available to you and that you will not need financial assistance upon arrival at Tufts.
