School of Veterinary Medicine-MAPP/MCM	32,612	18,582	800	3,574	55,568
Gordon Institute	22,000	18,582	-	2,569	43,151

If married and your spouse will accompany you to the United States, please add \$4,330 per year to the living expenses listed above. For each child who will accompany you, add \$3,000 per year.

\*If you are admitted to the School of Engineering and are granted a Teaching Assistantship (TA) or Research Assistantship (RA), the health service and health insurance fees will be included in your scholarship package.

**Final figures are subject to approval by the Board of Trustees in May, 2012.**

**Please Note:** Because individuals on student visas must certify that funds are available to finance their education, it is not expected that students will need to work beyond the limits of a teaching or research assistantship. Although part-time (not to exceed 20 hours per week) on-campus work is allowed, these jobs are limited. Please keep in mind that the U.S Citizenship and Immigration Services severely limits off-campus work for students, and, in most cases, does not allow it at all within the first academic year. **You must check with the International Center before considering off-campus employment.** We expect that the funding source(s) you are certifying to us will be available to you and that you will not need financial assistance upon arrival at Tufts.
