

# Global Women Mentee Information Form

The goal of the GW mentor project is to help undergraduate women develop their interests in the international arena, provide encouragement and support, help mentees explore educational opportunities and define career goals. Participants will be paired according to academic and professional interests. Mentees are encouraged to meet with their mentors at least once a month one-on-one and to come to Global Women-organized social events, which will be held throughout each semester.

If you would like to be matched with a mentor, please complete this form.
