

**The Second 2008-2009 CSD/SLD Think Tank Gathering**  
**Friday, December 12, 2008 | 9:30am - 2:00pm**  
**Assumption College, Worcester**

**Discussion Topic:** The Links between Social Change and On-line Social Networking

The internet, media, and online social networking permeates the lives of college students. This Think Tank will introduce ways that CSD directors can use those existing tools to engage students in community work. MACC is also looking for Boston-based campuses to pilot a program called Boston Youthmap, which will use online social networking to map and enhance community connections.

This workshop will cover:

1. Trends about how college students interface with technology
2. What young people are using: "new media," Lifecasting, Twittering, and Second Life - what do these terms mean?
3. Links between the internet and social change
4. Innovative ways that MACC campuses are using the internet and technology to enhance service-learning and community service

An overview of the MACC/TISCH/CIRCLE Boston Youthmap Learn and Service Initiative.

Come prepared to share your questions, your answers, and your struggles, and to learn from your colleagues!

<b>9:30-10:00</b>	Check in and Continental Breakfast
<b>10:00-11:00</b>	Welcome and Introductions - MACC and Campus Updates
<b>11:00-12:00</b>	Workshop Presentation
<b>12:00-12:30</b>	Lunch
<b>12:30-2:00</b>	Continuation of Workshop, Closing
