

Tisch Active Citizenship Summer(ACS): International applications are due **Friday, February 5th** at noon. ACS International provides a unique opportunity for Tufts student groups, undergraduate and graduate, to submit proposals detailing an international active citizenship project of their own design.

Financial support is available for student groups at a maximum of \$5,000. Funds can be used for travel costs or other project expenses. Student groups must complete an application, project budget and provide a letter of support from a local community representative.
