PRESIDENTIAL INTERNSHIP PROGRAM

Professional development and cultural experience at The American University in Cairo

2015-2016
Established in 1981, the Presidential Internship Program at The American University in Cairo (AUC) provides recent university graduates who are American citizens or permanent residents the opportunity to work at the highest levels of an international university, experience life in Cairo and learn Arabic.

Interns spend one academic year working at AUC. Each intern fulfills a full-time position in one of seven offices, aligned with their academic and professional interests, where they develop the substantive skills and experience needed to contribute to the AUC community and succeed in their future endeavors. Interns have utilized the skills, knowledge and networks they develop during the program to pursue a variety of meaningful opportunities and careers, including in the fields of government, academia, journalism and law.

In addition to the primary focus on professional development, interns study Arabic through AUC’s School of Continuing Education, benefit from faculty privileges such as faculty housing and library access, and enjoy AUC-sponsored trips to discover the culture and history of Cairo, Egypt and the Middle East.
On an average day, I meet with several high-ranking University officials, write a project timeline, do some research, go to an Arabic lesson, and spend time with friends or go into Cairo. The work experience is substantive and my office is friendly and welcoming, and living in Cairo is, of course, as great as it sounds.

Clare, Office of the President

WORK ARRANGEMENTS

Interns will work full-time from September 2015 to June 2016. Interns are responsible for airfare to and from Cairo, but transportation from the airport to AUC will be provided upon arrival. There will be a weeklong orientation starting in late August, partly with new faculty and partly with new international students, before beginning work.

I’m incredibly lucky to experience my dream job in a country with such a rich culture and history. As a mix of professional experience and cultural immersion, it’s an ideal way to spend my first year out of college and make my way into the working world.
