

Tufts University Department of Psychology presents

The Second Annual G.V.R. Khodadad Endowed Lecture
on the Neurobiology of Aggression

A Cognitive Neuroscience Approach to Reactive and Instrumental Aggression

Dr. James Blair

Chief of the Unit on Affective Cognitive Neuroscience
National Institute of Mental Health

James Blair's research seeks to understand the neuro-cognitive systems mediating affect in humans and how these become dysfunctional in mood and anxiety disorders, focusing on youth with conduct disorders. He uses techniques from cognitive neuroscience (both neuropsychology and functional imaging), psychopharmacology and, more recently, molecular genetics.

Dr. Blair received a doctoral degree in Psychology from University College London and was awarded a Wellcome Trust Mental Health Research Fellowship, after which he moved to the Institute of Cognitive Neuroscience, University College London. He joined the NIMH Intramural Research Program in 2002.

Friday 2 October 2015 at 10:00 am

Refreshments at 9:30 am, panel discussion to follow

Tufts University
Granoff Music Center – Distler Performance Hall
