RA Position Available

The Psychosocial Research Program at Butler Hospital is looking to hire two full-time research assistants to work on a variety of projects relating to the prevention and treatment of depression and suicide. Positions will start in June 2013. In particular, we would like to hire for projects focusing on: 1) hatha yoga vs. health education as an adjunctive treatment for depression (Director: Lisa Uebelacker, Ph.D.), and 2) a multimethod assessment study leveraging genetic, psychophysiological, and ecological momentary assessment methods to predict suicide risk (Director: Michael Armey, Ph.D.). The Psychosocial Research Program, located in Providence, RI, is affiliated with Brown University Medical School, and is under the leadership of Ivan Miller, Ph.D. For more information about specific projects, please refer to each faculty member's web page, which is located at: http://research.brown.edu/research/search.php.

Butler - Research Administration Department
Status Full-Time
Hours Fulltime position with some evening hours.
Shift Split
