Why is this important?

Your assigned room at Tufts will serve as your home while you are on-campus. These guidelines are formed by four basic goals: safety, comfort, building preservation, and community building.

The Residential Life & Learning staff intends for your experience in your residence hall to be as enjoyable as possible. Each of the policies we draft are specifically intended to prevent disturbance or emergency.

We depend on your respect and compassion for your neighbors as well as your common sense to ensure a safe and enjoyable community for each resident.
