The Abortion Access Project	47 Thorndike Street, Cambridge, MA 02141	The Abortion Access Project is a nonprofit organization based in Cambridge, Massachusetts, established in 1992 by activists and health professionals concerned about the declining numbers of abortion providers. Our mission is to ensure access to safe abortion for all women in the U.S. To this end, AAP looks for gaps in abortion access that no one else is addressing and seeks to create and support innovative responses to these gaps. Our current priority is to increase the participation of a wide range of health care providers in providing and connecting women to safe abortion care, particularly in rural and low-income areas.
