*Course includes Research Paper

#Course satisfies the quantitative elective requirement for Quant Econ majors

As a reminder, to be designated as a research paper course, a class must satisfy the following criteria:

1. Must count for at least 25% of the course grade;
2. Must have at least one core course as a prerequisite;
3. Should involve original thought;
4. Should be a substantive piece of work involving the following elements:
   1. A well-fined hypothesis or question that the paper is capable of answering;
   2. Include instructor feedback at various stages of the writing process. (For example, students might be required to undertake the following sequential assignments: short paper topic description, outline, bibliography, first draft, final draft);
   3. Involve multiple drafts;
   4. Marshall the appropriate evidence to engage in a critical analysis of the economic theories or conjectures relevant to the underlying hypothesis or question.
