 Cancer screening and prevention among marginalized groups
 Lesbian, gay, bisexual, transgender, and queer (LGBTQ) health
 Multilevel social determinants of sexual and reproductive health

RESEARCH GRANTS

Funded Grants

NCI K01, NCI/NIH (1K01CA234226-01) 09/2018-08/2021
 Role: Principal Investigator
 Project Title: Policy- and provider-level determinants of human papillomavirus vaccination disparities among young U.S. women
 Total Amount: \$158,403
 The goal of this career development award is to facilitate the acquisition of new knowledge and skills in health services research, health policy, and advanced econometric analyses and investigate how state health policies and health care provider attitudes, beliefs, and decision-making processes influence human papillomavirus vaccination among young women of color and sexual minority women using econometric and qualitative approaches.

Pilot from REIDS Program, NIH/NIMH (R25MH087217) 09/2018-08/2019
 Role: Principal Investigator
 Project Title: HIV and STI risk and prevention among transmasculine individuals of color
 Total Amount: \$20,000
 The goal of this mixed-methods pilot study is to investigate how patient-, provider-, community-, and societal-level factors influence HIV/STI testing among black, Latinx, and Asian transmasculine individuals using online surveys and focus groups.

Aerosmith Endowment Fund for Prevention and Treatment of HIV and Other Sexually Transmitted Infections, Boston Children's Hospital 04/2018-03/2019
 Role: Co-Investigator
 Project Title: Enhancing HIV and STI prevention among transgender young adults: Exploring the role of gender affirmation, body image, and intimate partnerships
 Total Amount: \$9,982
 The goal of this mixed-methods formative research project is to examine the links between body image, intimate partnerships and sexual health and sexual risk behaviors among transgender and non-binary young adults using in-depth interviews and online surveys.

Small Research Grant, Society of Family Planning 09/2017-02/2019
 Role: Principal Investigator
 Project Title: Access to and utilization of contraception and abortion services among transmasculine individuals

Total Amount: \$15,000

This qualitative research study examines the reproductive health perceptions, attitudes, and experiences of transmasculine young adults using in-depth interviews.

LGBTQ Health Disparities Pilot Grant, Harvard Catalyst

07/2017-06/2018

Role: Co-Investigator

Project Title: Health and economic impacts of state laws on sexual minorities of color

Total Amount: \$25,000

This quantitative research study uses econometric methods to ascertain the effect of sexual orientation and racial justice-related laws and policies on the health, health care, and economic outcomes of black, Latinx, and Asian sexual minorities.

Ruth L. Kirchstein National Research Service Award (1F32HD086999-01)

02/2016-01/2019

Role: Principal Investigator

Project Title: Sexual orientation and human papillomavirus vaccination among young women of color

Note. Funded but declined due to promotion to faculty position on February 1, 2016.

The goal of this mixed-methods study was to elucidate the social determinants of HPV vaccination among young adult sexual minority women using nationally representative survey data and in-depth interviews.

American Cancer Society Postdoctoral Fellowship (128863-PF-15-149-01-CPHPS)

01/2016-12/2018

Role: Principal Investigator

Project Title: Sexual orientation and human papillomavirus vaccination among young women

Total Amount: \$163,500

Note. Funded but returned due to promotion to faculty position on February 1, 2016.

The goal of this mixed-methods study was to elucidate the social determinants of HPV vaccination among young adult sexual minority women using nationally representative survey data and in-depth interviews.

Pilot from CBPR Partnership Academy, NIH/NIMHD (1R25GM111837-01)

09/2015-08/2016

Role: Principal Investigator

Project Title: Promoting the mental health of underserved girls in Boston, MA

Total Amount: \$1,500

This community-based participatory research project (with Strong Women Strong Girls) used focus groups to elucidate the body image experiences of pre-adolescent girls from diverse racial/ethnic backgrounds living in underserved Boston neighborhoods.

Dissertation Research Grant, The Open Gate, Harvard Gender and Sexuality Caucus

09/2012-05/2013

Role: Principal Investigator

Project Title: Cervical cancer screening among black lesbian, bisexual, and queer women

Total Amount: \$2,100

This qualitative study examined the cervical cancer screening experiences of black sexual minority women using focus groups.
